seventeen hundred years ago key elements of our ancient heritage were lost relegated to the esoteric traditions of mystery schools and sacred orders among the most empowering of the forgotten elements are references to a science with the power to bring everlasting healing to our bodies and initiate an unprecedented era of peace and cooperation between governments and nations in his groundbreaking new book the isaiah effect gregg braden turns to the isaiah scroll perhaps the most important of the dead sea scrolls discovered in 1946 to offer insight into a powerful form of ancient prayer in the isaiah effect braden author of awakening to zero point and walking between the worlds combines research in quantum physics with the works of the prophet isaiah and the ancient essenes he demonstrates how prophecies of global catastrophe and suffering may only represent future possibilities rather than forecast impending doom and that we have the power to influence those possibilities in addition to describing multiple futures the isaiah texts take us one step further clearly describing the science of how we choose our futures tracing key words of isaiah s text back to their original language we discover how he taught a mode of prayer that was lost to the west during biblical editing in the fourth century braden offers detailed accounts of how elements of this mode of prayer have been applied in a variety of situations ranging from healing life threatening conditions to entire villages using collective prayer to prevail during the 1998 fires in southern peru in each instance the correlation between the offering of the prayer and a shift of the events in question was beyond coincidence the prayers had measurable effects as modern science continues to validate a relationship between our outer and inner worlds it becomes more likely that a forgotten bridge links the world of our prayers with that of our experience each time we engage ourselves our loved ones and our communities with isaiah s life affirming message of hope we secure nothing less than our future and the future of the only home we know
